EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nikolaus Schibli on 09/28/05. The application has been amended as follows:

In the claims:

Claims 14-19. (cancelled).

REASONS FOR ALLOWANCE

2. Claims 1-13 are allowed. The following is a statement of the examiner's reasons for allowance. The present application relates to imaging optical systems. Regarding claims 1 and 10, the prior art fails to disclose an imaging optical system configured to pass a bundle of rays from a light modulator parts arranged one-dimensionally in a first direction and configured to image a one-dimensional image on an image surface via a curvature of field correcting optical system, wherein imaging takes place on a single imaging surface to thereby form a two-dimensional image on the image surface. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.
3. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103

would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
